

Inscape Data offers the **Best-in-Class All-in-One-Box LinkPower™ Outdoor PoE (Power over Ethernet) switch systems** based on the IEEE802.3af/at and IP66/67/68 standards, enabling IP Video Surveillance, Wireless Mesh network, Smart City, Campus Network, and Municipal Network applications to operate under extreme weather conditions.

BENEFITS

- Supply PoE Power to All 5 Classes of IP Network Video Cameras
- Built-In Power Supply Protected by Overload, Over Voltage, & Over Temperature Features
- Maximum Security Protection by a Rich Set of Security Features, i.e. Password, SSH, 802.1x, & AAA, etc.
- Remote Network Management Through a Broad Set of Management Functions, i.e., PoE/Port/QoS Configuration, Remote Diagnostics, & VLAN, etc.
- No Fans, Natural Cooling, and No Noise Design for Enduring Outdoor Installation
- Investment Protection by IP67/68 Compliant Outdoor Enclosures
- 3-Year Limited Factory Warranty

FEATURE SUMMARY

HARDWARE

- All Ports Support Auto-Flip, i.e., Auto MDI/MDIX
- All PoE Ports Support IEEE802.3af/at PoE power up to 30W, PoE++ Model up to 60W
- Dual Power Input Redundancy, i.e., 120V ~ 240V AC & 48V DC on all LPS1800/2000/3000
- 8K MAC Address Table, 9.6K Jumbo Frame, Packet Forwarding Rate 20.83 for 8 x RJ45 & 8.93Mbps@64bytes for 4 4x Gb RJ45
- 256Gbps Non-blocking Switching Capacity for 8 PoE ports & 128Gbps Bandwidth for 4 PoE Ports
- MBTF: 539608 Hours

EMC / SAFETY

- CE Mark, Commercial CE/LVD, FCC, RoHS
- FCC Part 15 Class B
- UL60591-1, TUV EN60950-1

MANAGEMENT

- Supports Enhanced Management Through Web, CLI, TELNET, SSH, & SNMP
- Supports STP (802.1D) & RTSP (802.1W)
- Supports Layer 2+ Switching Features Including 802.1Q VLAN, 4K VLAN Entries, Mirroring, Port Isolation, IGMP Snooping, DHCP Snooping, LLDP, PoE+ Management, IP Source Guard, ARP Inspection, CLs, etc.
- Support Remote Cable Diagnostics
- Support Ethernet Protection Ring G.8032 <50ms Industrial Quick Ring Protection

OPERATING CONDITIONS

- Operating -30°C to 70°C, Non-Operating -45°C to 85°C
- Humidity: Operating 5% to 95%
- Altitude: Operating 3000m

LinkPower™ Commercial PoE Switch Series

LinkPower™ Commercial PoE Switch Solutions are Layer 2+ and Layer 3 Managed PoE switches designed and manufactured by Inscape Data Corporation. LinkPower™ Commercial PoE Switch Solutions offer 24 to 48 Gigabit PoE Ports and 4*1/10G SFP+ fiber slot ports, and the switch hardware is designed with Microsemi VITESSE chipsets featuring with large cache, low latency, and powerful network management functions. Each PoE power delivers 30W, and the maximum PoE output power is from 400W to 600W based on a specific model. The LinkPower Commercial PoE switches automatically detect and recognize the power receiving equipment, which meets the PoE standards and supply power through the network cable. The LinkPower Commercial PoE switches are ideal for hotels, college campuses and medium to large enterprises.

LinkPower™ Commercial SFP L2+/L3 Managed Switch Series

The OFS Series solutions, the OFS2444 series, offer managed SFP managed L2+/L3 switches with 10G uplinks, with 24*100/1000M SFP ports +4*10/100/1000M RJ45 ports+4*1/10G(SFP+)Ports. The OFS2444 series offers Layer 2+ and Layer 3 full network management functions, which include support IPV4/IPV6 management, support static routing full line speed forwarding, support complete security protection mechanism, perfect ACL/QoS strategy and powerful VLAN function, a n d easy to manage and maintain. These functions support multiple network redundancy protocols STP/RSTP/MSTP (<50ms) and (ITU-T G.8032) ERPS to improve link backup and network reliability. In a situation where a one way network fails, communication can be recovered quickly to ensure uninterrupted communication of important applications. Through web network management mode, port traffic control, VLAN partition, SNMP, the OFS2444 series meets and exceeds the needs of any business configuration.

Model Name	OFS2444L2	OFS2444L2-10	OFS2444L3-10
Management	Layer 2+	Layer 2+	Layer 3
Port Interface (Network Protocol, Footnote 1)	Total 32 Ports 24 Gb SFP Ports, 4 Gb RJ45, and 4 Gb SFP Uplink Ports	Total 32 Ports 24 Gb SFP Ports, 4 Gb RJ45, and 4 10Gb SFP Uplink Ports	Total 32 Ports 24 Gb SFP Ports, 4 Gb RJ45, and 4 10Gb SFP Uplink Ports
SFP Port Characteristics	Gigabit /10 Gigabit SFP optical fiber interface, default matching optical modules, need to buy separately, (optional single-mode/multi-mode, single fiber / dual fiber module, LC)		
Optical Fiber Cable	Multimode:850nm 0~550M ,Single mode:1310nm 0~40KM,1550nm 0~120KM.		
System LED Indicators	Power indicator: PWR (yellow),System indicator: SYS(yellow),Network indicator: Link/Act (yellow), Fiber port :L/A(green)		
Switching Capacity, MAC Address Table Size	368Gbps Non-blocking, 32K	598Gbps Non-blocking, 32K	598Gbps Non-blocking, 32K
Total Power, Input Volt.	55W, AC100-240	60W, AC100-240	60W, AC100-240
Packet Forwarding Rate	131Mpps @ 64bytes, Full Speed Filtration		
MAC Address Table & Buffer Memory	32K & 32Mb, Support automatic updates, two-way learning		
QoS	WFQ (Weighted Fair Queuing); WRR (Weighted Round Robin); Head Of Line; Best-Effort Service; First come first served; 802.1p; Cos/Tos, QOS; Differentiated Service; Hardware support port-based IP+MAC Binding; Hardware support port-based ARP inspection detection;		
VLAN	Support port based VLAN (4K), IEEE802.1q, protocol based VLAN, Access, Trunk, Hybrid three types of port configuration, QinQ configuration		
Spanning Tree	STP (IEEE802.1d), RSTP (IEEE802.1w), MSTP (IEEE802.1s)		
Industrial Ring Network Protocol	Support G.8032 (ERPS), support 255 loops at most, and supports 1024 devices per ring, the self healing time of the ring network is less than 20ms		
Management Features	DHCP Client, DHCP Snooping Port Aggregation, Multicast, Storm Control, QoS, Hardware Priority Queue, Port Security, IGMP v1/v2 snooping, Secure Sheel (SSH) Porotocol, Web GUI management, CLI Management		
Security Features	1.User grading management and password protection, 2. IEEE802.1X authentication / centralized MAC address authentication, 3. AAA & RADIUS authentication, 4. the number of MAC address learning restrictions, 5. MAC address black hole, 6. SSH 2 to provide secure passwords for user login, 7. SSL to ensure data transmission security, 8. Port isolation, 9. the speed limit function of ARP message, 10. IP source address protection, 11. ARP intrusion detection function, 12. Against DoS attacks, 13. Port broadcast message suppression, 14. Host data backup mechanism, 15. Binding capabilities of IP+MAC+VLAN+ ports		
Lighting Protection	Lightning protection :4KV 8/20us; Protection Level:IP30		
Switch Reset	Support one key to restore factory settings		
Installation Method	Desktop type, 19 inch 1U cabinet installation		
Operating/Storage Temp.	-20~-+55°C;Humidity 5%~90% RH Non condensing, -40~-+80°C; Humidity 5%~95% RH Non condensing		
Dimensions (LxWxH)	17.30x8.86x1.73 Inch		
Certification	CCC; CE mark, Commercial; CE/LVD EN60950; FCC Part 15 Class B;RoHS;		
System Requirements	A) Web browser: Mozilla Firefox 2.5 or higher, Google browser chrome V42 or higher, Microsoft Internet Explorer10 or later; B) 5 types and above Ethernet cable; C) TCP/ IP, network adapter and network operating system (such as Microsoft Windows, Linux or Mac OS X) are installed on computers in the network.		
Warranty	3 Years
